

# Instructions for the paper plane

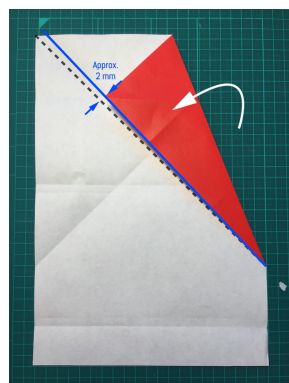

Paper: A4 size

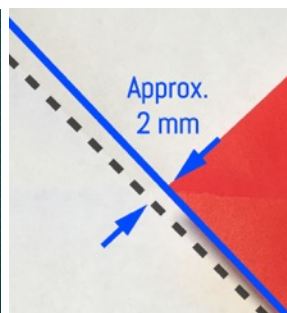

1. Fold the paper according to the dotted line (so the shorter side meets the longer side)

2. Unfold it and repeat it for the other side.

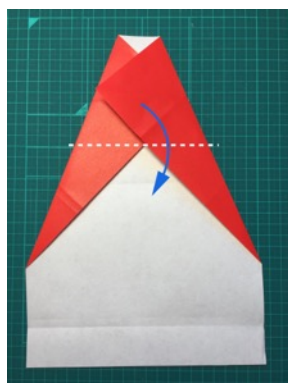

3. Fold the side approximately 2mm inward from the fold line in step 1. Repeat it for the other side.

4. Put right hand side on top of the left hand side.

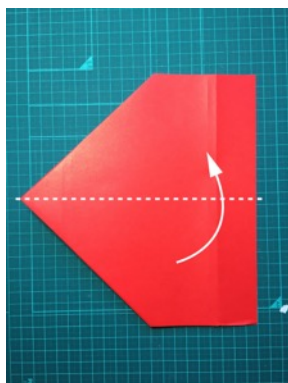

5. Fold it at the point where two sides are overlapped (circled point).

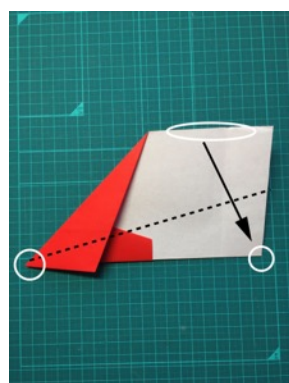

6. Fold two sides at the dotted lines towards the centre.

7. Rotate it by 90 degrees and turn it over.

8. Fold it at the dotted line, keep the front vertex away from the fold line. Make sure that the top side meets the corner on the back.

9. Repeat step 8 for the other side.

10. Make sure that the wings are forming a V-shape when seen from the front.
